UNIVERSIDAD
Panamericana

Stand: Februar 2025

Allgemeines:

Panamericana has set out to meet the great global challenges, reconciling Christian Identity with the necessary innovation to respond to current needs. The essence of the educational philosophy of our University is fundamentally expressed in the integral education of each student, both as a future professional and as a person: this is the goal to be achieved through all that the university task implies.

The School of Engineering was founded in 1979 under the tutelage of IPADE, supported by a sector of business in our country. With more than 3,000 undergraduate graduates, UP engineers are in demand for positions in various fields such as industry, business, senior management, research, applied technology, health and social development, due to its prestige.
