Kuopio, Finnland

<https://www.savonia.fi/en/study-with-us/for-students/new-exchange-students/>

Stand: November 2024

Allgemeines:

Savonia University of Applied Sciences (Savonia UAS) is one of the largest and most versatile universities of applied sciences in Finland. Our organization of experts educates strong professionals in six different fields of study. Savonia is an international, work-life-oriented university of applied sciences that educates, researches, develops, and innovates. Our values are tight around the themes of communality, responsibility and impact.. Savonia actively serves the working life in the region – especially in its selected research areas. Our research, development and innovation work (RDI) offers expertise and tailor-made problem solving to enterprises and organizations. Our key success factors are collaboration, networking and international perspective.
